Project: creation of a cryptocurrency App

This project should give an overview of ongoing changes, trends and live prices of Cryptocurrencies.

Team Charter

- Abdul Ghafar Mohammadi

Introduction

My goal is to visualize the cryptocurrency dependencies on the example of different values

Dataset

My Dataset come from : https://www.coingecko.com/en/api/documentation

Domain Question:

What is the Ranking and given prices of the cryptocurrencies?

Answer:

The value change automatically and the data from the main website is being transferred thanks to ETL.
